(Without Abstract)

Welcome to the April 2018 issue of the FBIM Transactions, an international peer-refereed academic journal, the official journal of the non-profit organization MESTE, and the Faculty of Business and Law of the "Union – Nikola Tesla" University in Belgrade, and the SZ & Associates - Toronto. This issue is published online and in print.

After the previous issue of the journal, we decided to apply new publishing schedule. From 2018 we will publish our journal twice a year, on April 15th and October 15th.

The focal point of the journal remained at international level, with the view on matters from a global perspective. However, due to their importance, in this issue have been published some papers relating to some specific local events. In this issue sixteen of submitted scientific papers were published, of which five were classified in the group of the original scientific research papers and eleven in the group of review articles. Most of the articles are multidisciplinary. However, five of papers could be classified to the area of finance, seven to management, and four to the field of IT and industrial technology.

All articles published in this issue, as well as in the previous issues of the FBIM Transactions journal have their own DOIs.

We keep the practice that articles, that have undergone peer review, and will be published in the next issues, we make available to readers in the form of preview - early reading. Thus, most of the published works were available to the public even before the official publication.

We follow the mission and vision of the journal, and we help authors to publish their works and present their achievements in the most convenient way. It should be borne in mind that the editors do not censor the works that we publish. The published works can contain and/or proclaim views that could differ from the views of the editorial board. We check articles on plagiarism, but we are not able to guarantee the accuracy of the data published in scientific and professional works of our authors. We believe that our authors are honorable and publish only their original works with really achieved results. For the quality of papers we publish, we thank the authors and reviewers who did their job well and conscientiously.

You can follow us on the Facebook:

<https://www.facebook.com/www.meste.org?ref=profile>

as well as on the Twitter:

<https://twitter.com/MesteZc>

We invite you to publish your works with our motto:
"If you wish to be quoted, people first have to hear for you".
We will help you!

A handwritten signature in black ink that reads "Zoran Čekerevac".

Prof. Dr. Zoran Čekerevac
Editor-in-Chief
